JHN **MICRO TEC***
Beauty Through Technology

There are high requirements as to quality and safety

JMT color are therefore developed to achieve the major objectives by set-up much stricter rules.

All pigments are hypoallergenic and pharmaceutical that comply with Regulation (EC) Europe Resolution ResAP (2011)1.

This means that we guarantee that amines containing aromas as well as heavy metals will not be found in JMT COLOR.

JMT COLOR has a wide range for pigment, composed to achieve natural and long lasting results as well.

Our JMT COLOR, Derma Safe pigments have been tested and awarded the top grade "Excellent" by DERMATEST ' Munster
